The international conference

on 11 June will be preceded by a **social event** on 10 June in the evening and followed by a **technical visit** on 12 June.

ILCAD

spearheaded by the UIC (www.uic.org) draws railway industry representatives, road authorities, academics and more from around the world - aims to raise awareness about the dangers associated with the road/rail interfaces (level crossings).

The International Level Crossing Awareness Day

is a joint commitment that began in 2009 with ELCAD (EU countries + Israel). Since then, UIC has been coordinating this worldwide event to raise public awareness about the dangers at level crossings.

A successful ILCAD Launch Conference

as part of the 11th edition of the International Level Crossing Awareness Day on 6 June 2019 hosted by ProRail took place in Amersfoort, Netherlands with 180 guests from 25 countries, 43 speeches from 17 countries.
