Title of presentation: Current Measures to Prevent Level Crossing Accidents in JR EAST

Summary:

JR EAST has implemented to any measures such as eliminated level crossing for decreasing number of Level crossing accidents. Actually, the number of accidents had decreased approximately 80% compared to 1987. On the other hands, the number of accidents has not decreased recent years. In addition, elderly persons have been increasingly involved Level Crossing accident recent years.

Therefore, we would like to introduce current measures for preventing accident about implement of both hardware and software, cooperate with road administrator and utilize new technology.

Act safely at level crossings
