TRESPASS PREVENTION - SESSION 1 – SNCF Panel discussion - 65 min

- **Damien Pallant – Director General -Deputy for Safety at SNCF Réseau :
Introduction**

“Across the national rail network, an average of 13,000 trespass cases per year are reported by all employees of the SNCF group. This is a valuable source of data, obtained through specific organisational structures, tools and coordination within the Security Department. How can we analyse this vast amount of data and manage the risk as effectively as possible? How can we better understand these behaviours in order to respond more effectively? These are the challenges we are tackling to reduce the risk posed by trespassing and contribute to the efficient operation of the network.”

**A panel discussion moderated by Damien Pallant, Deputy Managing Director
for Safety at SNCF Réseau – 55 min**

Opening remarks, a reminder of SNCF Réseau’s safety strategy, and the distinction to be made between suicide and track-side accidents. Innovations that limit trespassing and thus **reduce the risk of suicide attempts.**

- **Damien Pallant – Director General – Deputy for safety at SNCF Réseau**
3-minute introduction

The ‘suicide’ policy within the SNCF Group. Innovations highlighted during the morning session that limit unauthorised access and thus reduce the risk of suicide. During the panel discussion, several topics will be discussed: annual review, key actions with the authorities to prevent, manage and avoid relapses.

Panel discussion– 45 minutes:

This panel discussion offers a cross-disciplinary approach combining psychiatric expertise and personal experience. Moderated by Caroline Chantrel, Papageno, it aims to promote a better understanding of suicidal crises and the associated challenges. The aim is to help the audience better understand why and how to act in prevention.
